SEEDS Poultry Supplies FEEDS

ESTABLISHED 1881

In memory of

FRANKLIN P. CASSEL

Died July 9, 1924

Founder of Cassel's Seed Store in 1881

Retired from business in 1920

Thirty-nine years active in seed business

His earnest, conscientious, faithful service in establishing this business is greatly appreciated and we deeply mourn the loss of his wise counsel.

"DEPENDABLE QUALITY-SERVICE-PRICE"

We are herein giving descriptions of varieties of seeds that have been found through tests by growers and reports from our customers to be the most desirable varieties. We are also listing the well-known market varieties.

We have always endeavored to supply seeds of highest quality and germination, placing our growing contracts with most reliable vegetable seed growers. They are grown under careful supervision, are fresh tested, and should please the most critical trade. We operate our own seed tester, which assures our customers of seeds of good germination. We believe, considering the quality of seeds we are offering, our prices will be attractive and your orders will receive our best care and attention.

It is our desire that our organization shall be of real service and good to our many customers and to the community. Crop and market conditions and other information we will be glad to give at any time.

We much appreciate the patronage our many customers have given us during the past 44 years and trust we may merit a continuance during 1925. We assure all that whatever orders we are favored with will be gratefully received.

NON-WARRANTY CLAUSE—We select our seeds with great care, however, we cannot be absolutely certain of the description, quality, or productiveness of any seeds, roots, bulbs or plants we sell, nor can we forecast the variable conditions under which they may be grown. Therefore, it is impossible for us to give any guarantee and all our seeds are sold with that understanding and if purchaser prefers not to accept seeds on these terms, same may be returned to us at once and we will willingly refund money.

All prices are subject to change, unsold, confirmation, and f.o.b. Lansdale, Pa.

CASSEL'S "DEPENDABLE" VEGETABLE SEEDS

TERMS: Our terms are strictly cash with order and remittance may be made by Postal Money Orders, Stamps, Registered Letter, or personal check. Where personal check is received from unknown parties, same will be cashed before order is executed. All bags and packages are included on Vegetable and Flower Seeds without extra charge. All goods are f. o. b. Lansdale except 10-cent and ounce packets of vegetable and flower seeds which are postpaid without extra cost. If Peas, Beans, Corn, or other items listed in catalog are wanted by parcel post, be sure to add postage to your order.

| DOMESTIC PARCEL POST RATES | | First additional | Third additional |
|--|-------|-------------------|-------------------|
| On Seeds, Bulbs, Roots, etc., within the U. S. and Possessions | | pound or fraction | pound or fraction |
| First Zone, Lansdale and within 50 miles of Lansdale | | 5c. | 1c. |
| Second Zone, within 50 to 150 miles of Lansdale | | 5c. | 1c. |
| Third Zone, " 150 " 300 " " " | | 6c. | 2c. |
| Fourth Zone, " 300 " 600 " " " | | 7c. | 4c. |
| Fifth Zone, " 600 " 1000 " " " | | 8c. | 6c. |
| Sixth Zone, " 1000 " 1400 " " " | | 9c. | 8c. |
| Seventh Zone, " 1400 " 1800 " " " | | 11c. | 10c. |
| Eighth Zone, all over 1800 miles of Lansdale | | 12c. | 12c. |

Where no variety is specified, it is our rule to supply what we consider the most desirable. Varieties not listed herein we can usually supply on special order.

Note—We sell no packets of vegetable and flower seeds less than 10c each.

ASPARAGUS

Culture—1 oz. should produce about 400 plants.

Sow early in spring about 1 inch apart in rows 2 ft. apart and cover lightly. Keep free from weeds and re-set in fall or following spring.

BARR'S MAMMOTH, Green Sprout; **PALMETTO**, Green Sprout, **GIANT ARGENTEUIL**, White Sprout.

Oz. pkt. **10c**; 2 oz. **18c**; 4oz. **30c**; 8 oz. **55c**; lb. **\$1.00**.

WASHINGTON, Dark Green sprout.

Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 80c; 8 oz. \$1; lb. \$2.75.

ASPARAGUS ROOTS

Market is variable, prices subject to change.

Culture—5000 roots to 1 acre, 100 per 100 ft. row.

Plant early in spring. Select good loamy soil, cultivate deep. Dig trench 12 to 15 inches deep. Fill in with bone, stable or other good manure to within 10 inches of top. Cover with 2 inches ground, set roots 12 to 15 inches apart and fill in to top of trench. Place rows in garden 2 ft. apart and in field culture 4 ft. apart.

WASHINGTON — A new rust - resisting asparagus recently introduced, which is highly recommended and may largely replace older varieties. A heavy yielding variety with long, thick heavy stalks, closely folded at the tips. Does not open out or begin to sprout until well out of the ground. Color rich, dark green.

Per 1000, **\$12.00**; 500, **\$6.50**; 100, **\$1.50**;
less than 100 @ **2c ea.**

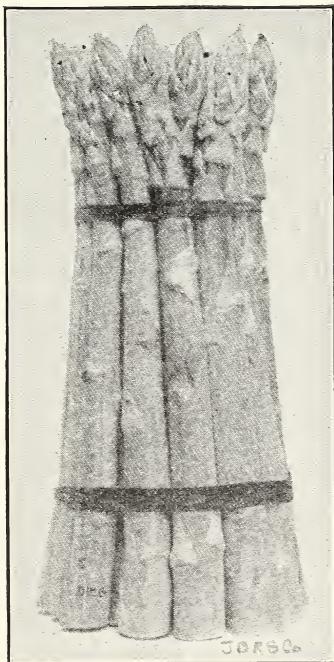

BARR'S MAMMOTH; PALMETTO and
GIANT ARGENTEUILL.

Per 1000, \$9.00; 500, \$5.00; 100, \$1.25;
less than 100 @ 1 3/4 c ea.

ARTICHOKE SEED

Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c.

Artichoke Plants or Roots prices on request.

Asparagus

BEANS

Dwarf or Bush

Round Pod Kidney Wax Beans

Culture—1 pt. to 100 ft.; 1 bu. per acre.

A succession of plantings can be made from May 1 to August 1. Plant in rows or drills 18 to 24 inches apart, 2 inches deep and beans about 2 inches apart.

Wax Podded Varieties

ROUND POD KIDNEY WAX (Brittle Wax) — An excellent early round podded stringless variety of highest quality, maturing early, prolific. Pods 5 to 6 inches long and of a light yellow wax-like color. Seed white with a brownish-black eye. This is our leading wax bean and will please the most critical trade. Matures for use in 45 to 50 days. Crop this season is unusually short, but we are fortunate in having a reasonable supply.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.35; 4 qt. \$2.50; 15 lbs. \$4.50; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

WEBBER'S WAX—An extra early wax variety of highest quality, semi-round stringless, very fleshy. Pods 6 to 6½ inches long, uniformly curved, brittle. Plant vigorous and productive. Color of pod bright yellow. Seed amber. Matures for use in 40 to 45 days, about one week earlier than Round Pod Kidney Wax.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.15; 4 qt. \$2.20; 15 lbs. \$3.90; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

PENCIL POD BLACK WAX; BURPEE'S NEW KIDNEY WAX; HODSON WAX; WARDELL'S WAX; RUST PROOF GOLDEN WAX; CRYSTAL WAX.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.15; 4 qt. \$2.20; 15 lbs. \$3.90; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

BEANS—Continued

Green Podded Varieties

GIANT STRINGLESS GREEN POD—Most desirable of the green podded varieties. Pods 5 to 6 inches long, round, stringless, brittle and very fleshy, early, hardy and of high quality. Matures for use in 40 to 45 days.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.35; 4 qt. \$2.50; 15 lbs. \$4.50; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

BOUNTIFUL—Most productive flat green podded stringless type. Vigorous and disease resisting. Pods 6 inches long, broad, thick, very brittle, light green in color. Matures for use in about 50 days.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.15; 4 qt. \$2.20; 15 lbs. \$3.90; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

BURPEE'S STRINGLESS; EARLY RED VALENTINE; DWARF HORTICULTURAL.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.15; 4 qt. \$2.20; 15 lbs. \$3.90; 25 lbs. \$6.00; 50 lbs. \$11.50; 100 lbs. \$22.00.

Winter Shelling Bush

Culture—Same as Bush Beans except they should not be planted until after June 20th to avoid weevil.

WHITE NAVY or **PEA BEAN**; **CRANBERRY MARROW** or Medium, White; **WHITE KIDNEY**; **RED KIDNEY**.

$\frac{1}{2}$ pt. 16c; pt. 28c; qt. 50c; 2 qt. 90c; 4 qt. \$1.70; 15 lbs. \$3.00; 25 lbs. \$4.50; 50 lbs. \$8.50; 100 lbs. \$16.00.

Pole or Running

Culture—Similar to Pole Limas.

GOLDEN CLUSTER WAX—An excellent pole wax podded variety. Vigorous, hardy and productive. Pods $6\frac{1}{2}$ to 7 inches long, straight, broad and flat, very fleshy, attractive and high quality. Color light waxy yellow. Bean white, oval shaped. They remain in condition for use a long time. Mature for use in about 70 days.

$\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c; 2 qt. \$1.25; 4 qt. \$2.35; 15 lbs. \$4.25; 25 lbs. \$6.25; 50 lbs. \$12.00; 100 lbs. \$23.00.

KENTUCKY WONDER or **OLD HOMESTEAD** (Green Pod)—The most desirable green podded climbing or corn-hill bean. Pods 8 to 9 inches long, slender, decidedly curved, tender, of good quality and productive. Mature for use in 65 to 70 days.

$\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c; 2 qt. \$1.25; 4 qt. \$2.35; 15 lbs. \$4.25; 25 lbs. \$6.25; 50 lbs. \$12.00; 100 lbs. \$23.00.

WHITE SEEDED KENTUCKY WONDER (Green Podded Stringless); **KENTUCKY WONDER WAX**; **LAZY WIFE** (Green Pod); **CASE KNIFE** (Green Pod); **HORTICULTURAL** (Green Pod).

$\frac{1}{2}$ pt. 20c; pt. 35c; qt. 65c; 2 qt. \$1.25; 4 qt. \$2.35; 15 lbs. \$4.25; 25 lbs. \$6.25; 50 lbs. \$12.00; 100 lbs. \$23.00.

SPECIAL OFFER FOR 1925

An assortment of twelve 10c packets Vegetable Seeds
at Special Price of \$1.00.

LIMA BEANS

Dwarf or Bush

Fordhook Bush Lima

Culture—1 pt. to 100 ft. row; 1 bu. per acre.

Plant after May 20th in rows 2 to 3 ft. apart and place bean with eye down 6 inches apart in the row. Cover with about 1 inch soil.

FORDHOOK—A most excellent variety of highest quality. Pods about 5 inches long, containing 4 to 5 large, oval-shaped, very thick beans. Produces beans in clusters and plants are of a strong upright growth, preventing rotting during wet weather. Mature for use in 70 to 75 days. Have a distinctive mealy taste.

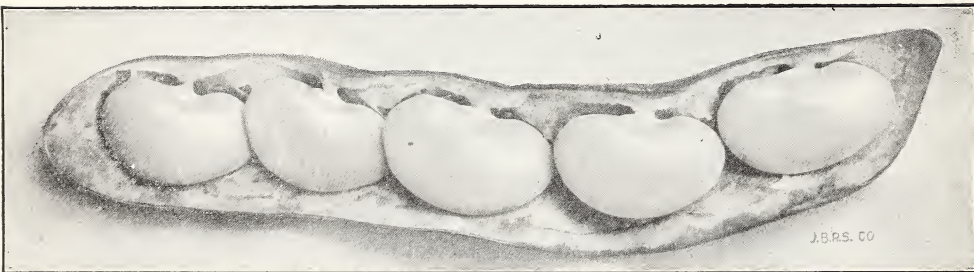

$\frac{1}{2}$ pt. 27c; pt. 48c; qt. 90c; 2 qt. \$1.75; 4 qt. \$3.30; 15 lbs. \$5.85; 25 lbs. \$9.25; 50 lbs. \$18.00; 100 lbs. \$35.00.

BURPEE'S IMPROVED—Best of the flat type beans. Bean is large and thick. Pods measure 5 to 6 inches long, are strong and vigorous, producing attractive pods in clusters and are of a delicious flavor. Productive and more hardy for early planting than some types.

$\frac{1}{2}$ pt. 25c; pt. 43c; qt. 80c; 2 qt. \$1.50; 4 qt. \$2.90; 15 lbs. \$5.10; 25 lbs. \$8.00; 50 lbs. \$15.50; 100 lbs. \$30.00.

NEW WONDER—Large flat bean. **HENDERSON**—Small flat bean.

$\frac{1}{2}$ pt. 25c; pt. 43c; qt. 80c; 2 qt. \$1.50; 4 qt. \$2.90; 15 lbs. \$5.10; 25 lbs. \$8.00; 50 lbs. \$15.50; 100 lbs. \$30.00.

Giant Green Prolific Pole Lima

Pole Lima Beans

Culture—1 qt. to 150 hills.

Plant after May 20th in rich loamy soil. The germ is delicate and the ground should be warm. Set poles 3 ft. apart each way. Plant 4 beans to a hill, eye of bean down. Cover with 1 or 2 inches soil.

GIANT GREEN PROLIFIC—Most desirable of the flat pole limas. Large pods about 6 to 7 inches long, borne in clusters. Of excellent quality.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

"DEPENDABLE" VEGETABLE SEEDS

LIMA BEANS—Pole, continued

DREER'S IMPROVED or CHALLENGER—Plants vigorous, hardy and productive. Pods contain 4 to 5 thick medium size light green beans. Also known as Potato Lima. Produces more shelled beans than the flat podded sorts. Continues to produce for a long time.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

LEVIATHAN; KING OF THE GARDEN; FORD'S MAMMOTH PODDED.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

BEETS

Culture—2 oz. to 100 ft.; 5 to 6 lbs. to acre.

Plant in light, rich, well-worked soil as early in spring as ground will permit, in rows from 12 to 24 inches apart, about $\frac{1}{2}$ inch deep. For main crop sow early in May and for winter use sow in June. Thin out to 3 inches apart.

EARLY ECLIPSE—A most desirable variety, for either market or home gardens. Rapid growth, excellent globe-shaped form, small tops, medium size, bright red or crimson flesh, fine grained and of a delicious flavor. It is our favorite early Beet. Matures for use in 40 to 45 days.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 38c; 8 oz. 60c; lb. \$1.10.

DETROIT DARK RED—An excellent medium early or main crop variety for home or market gardeners and for canning purposes. Roots uniformly smooth, of medium size, globe shaped. Skin dark red, flesh solid, rich blood red, sweet, tender and delicious. The tops are small, dark green shaded with red, and of upright growth, thus allowing planting in close rows, a valuable feature where space is limited. Fine for market bunching. Matures for use in 48 to 52 days.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 38c; 8 oz. 60c; lb. \$1.10.

BASSANO; CROSBY'S EGYPTIAN; ELECTRIC; CRIMSON GLOBE; YELLOW GLOBE.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 38c; 8 oz. 60c; lb. \$1.10.

Detroit Dark Red Beet

MANGEL BEETS

For Feeding

Culture—2 oz. to 100 ft.; 5 to 6 lbs. to acre.

Sow early in May in rows 2 to 3 ft. apart. Seeds should be dropped 2 inches apart. Cover with 1 inch of soil. Later thin out to stand 9 to 15 inches apart.

MAMMOTH LONG RED—Attains very large size, producing 30 to 50 tons to the acre. Roots long and uniformly round, light red, growing well above the ground. Flesh rose colored and white.

Oz. pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 38c; lb. 65c; 5 lb. \$3.00; 10 lb. \$5.50.

GOLDEN TANKARD—Roots large, long and round in shape, narrowing abruptly at both ends. Skin deep orange yellow. Flesh is yellow zoned with white. Neck and top are small. Sweet and productive.

Oz. pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 38c; lb. 65c; 5 lb. \$3.00; 10 lb. \$5.50.

BROCCOLI

Is similar to and culture is same as Cauliflower.

Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 60c; 2 oz. \$1.10; 4 oz. \$2.00; 8 oz. \$3.75; lb. \$7.00.

BRUSSELS SPROUTS

Culture—Same as Cabbage which it resembles, the edible part being the numerous small heads or sprouts formed on the stalk at each joint. Plant about May 15th.

Pkt. 10c; $\frac{1}{2}$ oz. 15c; oz. 25c; 4 oz. 80c; 8 oz. \$1.45; lb. \$2.75.

BROOM CORN

Culture—Sow in drills 3 ft. apart, about 8 lbs. to acre, thinning out stalks to stand 8 to 10 inches in the row. Cultivate like corn. Cut when seed is in the milky state.

$\frac{1}{2}$ pt. 10c; pt. 17c; qt. 30c; 2 qt. 55c; 5 lb. 90c; 10 lb. \$1.60.

CARROTS

Culture—1 oz. to 100 ft. row; 4 lbs. to acre.

Seed may be sown early in spring as soon as the weather will permit and may be continued until middle of July. For main crop, sow during May. Thin out plants to 5 or 6 inches apart. Rows should be 18 to 24 inches apart.

DANVER'S HALF LONG — The best medium early main crop variety. Roots are 6 to 8 inches long, tapering to a blunt end. Flesh deep orange, tender and of excellent quality.

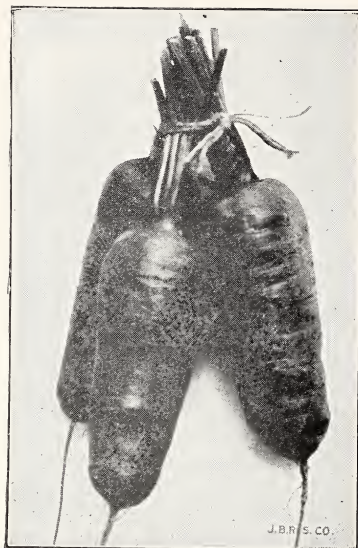

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 75c; lb. \$1.35.

CHANTENAY (Similar to Danver's); **EARLY OXHEART**; **EARLY SCARLET HORN**.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 75c; lb. \$1.35.

WHITE BELGIAN AND YELLOW BELGIAN for Cattle.

Oz. pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 55c; lb. \$1.00.

Danvers Half Long Carrots

CELERIAC

(Turnip-Rooted Celery)

Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 80c; 8 oz. \$1.40; lb. \$2.50.

CHERVIL

(For flavoring soups and salads)

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c.

CHICORY

Witloof

Pkt. 10c; oz. 20c; 2 oz. 35c; 4 oz. 55c; 8 oz. \$1.00; lb. \$1.80.

COLLARDS

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

CABBAGE

Copenhagen Market Cabbage

Culture—1 oz. for 2000 plants; 4 to 6 oz. for plants for 1 acre.

Early varieties should be sown in hotbeds in February. Set out early in April, weather permitting, in rows about 2 ft. apart and 18 to 24 inches between the plants in the row. Early crop should mature in July. Plant second early varieties in April and set out in May, which matures in August and September. For late fall and winter use, plant in May and June, set out in July and crop matures in October and November. To prevent green worms and bugs on Cabbage, use Slug Shot. For aphid, or louse, use Tobacco Dust or Nicotine Sulphate.

COPENHAGEN MARKET—The best extra early variety. Very fine quality. Stems short, heads large, uniform, round and very solid with few outer leaves. Of an upright growth. Heads average about 8 to 10 lbs. Will stand a long time without bursting.

Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; 2 oz. 70c; 4 oz. \$1.20; 8 oz. \$2.20; lb. \$4.00.

HOLLANDER or DANISH BALL HEAD (Short Stem)—One of the very best leading hardy winter sorts. Heads large, round, and very solid. Fine keeper. Excellent quality. Strong growth.

Pkt. 10c; $\frac{1}{2}$ oz. 18c; oz. 30c; 2 oz. 50c; 4 oz. 90c; 8 oz. \$1.60; lb. \$3.00.

GOLDEN ACRE—A new special extra early selection of Copenhagen type and the earliest of the round-headed cabbages. Plant dwarf and compact with few outer leaves. Heads of medium size, round as a ball, hard, solid, and very uniform. About 10 days earlier than Copenhagen, making it a very valuable sort. Our supply is limited.

Pkt. 10c; $\frac{1}{4}$ oz. 35c; $\frac{1}{2}$ oz. 60c; oz. \$1.00; 4 oz. \$3.50; 8 oz. \$6.50; lb. \$12.

EARLY JERSEY WAKEFIELD; LATE FLAT DUTCH; LATE DRUM-HEAD; WINNINGSTADT; DRUMHEAD SAVOY; SUREHEAD; RED DUTCH.

Pkt. 10c; $\frac{1}{2}$ oz. 18c; oz. 30c; 2 oz. 50c; 4 oz. 90c; 8 oz. \$1.60; lb. \$3.00.

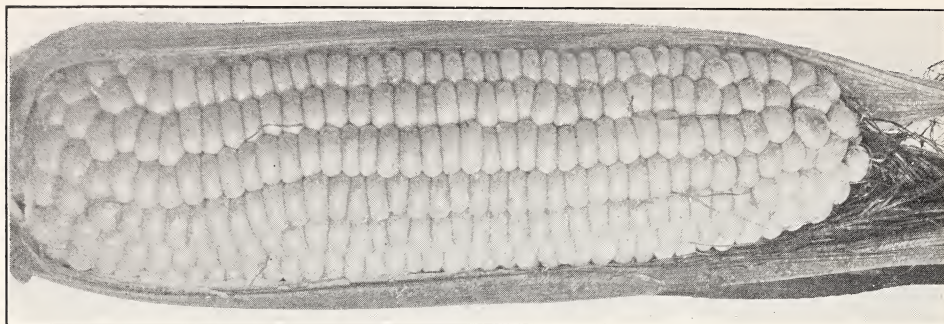

CORN SALAD

Culture—1 oz. to 100 ft. row.

For summer use, sow early in spring; for winter and spring use, sow in August and September. Rows about 1 ft. apart. Use same as Lettuce or Spinach.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

CORN

Cassel's New Wonder Corn

Culture—1 qt. for about 600 ft.; 6 to 8 qts. per acre.

Plant early varieties as soon as soil is in good condition; late varieties from May 20th to July 4th; in rows about 3 ft. apart. Thin out to stand 12 inches apart in row. The early varieties often prove more profitable on account of the scarcity and high price in early season, even though ears are not so large. We advise planting 3 to 5 varieties at one time and Corn will then mature in succession. Soil should be well manured and freely cultivated. We recommend the following succession planted at one time: Cassel's New Wonder, Howling Mob, Early Mammoth, Narrow Grained Evergreen and Stowell's Evergreen.

Owing to the unusual growing and harvesting condition of the Corn crop last year, Seed Corn of good germination will be unusually scarce and consequently high in price. We would urge that special care be given to the selection of your seed corn for season 1925.

CASSEL'S NEW WONDER (see illustration)—Our leading extra early variety, ready for use in about 60 days. Grains deep, rows straight, stalks 5 to 6 ft. high, of unusual vigorous growth. Often two ears to the stalk. Ears 8 inches long, rather blocky in form, 16, 18 and often 20-rowed; filled to the end, with rather narrow, deep, wedge-shaped grains of silvery whiteness and high sugar content. This Corn has met with unusual favor and praise from our customers. We recommend it very highly. Of special value to market gardeners.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 8 qt. \$4.50; 25 lb. \$8.25; 50 lb. \$15.50; 100 lb. \$30.00.

CASSEL'S GOLDEN DELICIOUS—A remarkable new yellow sweet corn of much merit. While the stalks grow 6 ft. or more in height and the 14-rowed ears are 7 to 8 inches in length, this variety matures about 3 days earlier than Golden Bantam. Kernels are broad, deep, and of excellent quality. Stock is very limited, but we have provided a reasonable supply.

$\frac{1}{2}$ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 8 qt. \$4.50; 25 lb. \$8.25; 50 lb. \$15.50; 100 lb. \$30.00.

HOWLING MOB—One of the finest second early, 65-day corns. Ears are 9 to 10 inches long, 16-rowed, white, and of fine quality. Very productive.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.10; 8 qt. \$4.00; 25 lb. \$7.50; 50 lb. \$14.50; 100 lb. \$28.00.

EARLY MAMMOTH—A medium early Corn, about 70 days. Ears 8 to 9 inches long, 14-row, broad; tender and sugary. Medium deep grain. A ready seller for market gardeners.

$\frac{1}{2}$ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.10; 8 qt. \$4.00; 25 lb. \$7.50; 50 lb. \$14.50; 100 lb. \$28.00.

CORN—Continued

COUNTRY GENTLEMAN—An especially fine quality Corn. Ears 7 to 8 inches long, small cob, deep slender white grains running zigzag without row formation. About 75 days.

½ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 8 qt. \$4.50; 25 lb. \$8.25; 50 lb. \$15.50; 100 lb. \$30.00.

NARROW GRAINED EVERGREEN—A splendid high quality evergreen, slightly earlier than Stowell's. About 75 days. Large ear with small cob, having 18 to 20 rows of very deep, narrow white grains. We believe it is the most desirable canning variety.

½ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.10; 8 qt. \$4.00; 25 lb. \$7.50; 50 lb. \$14.50; 100 lb. \$28.00.

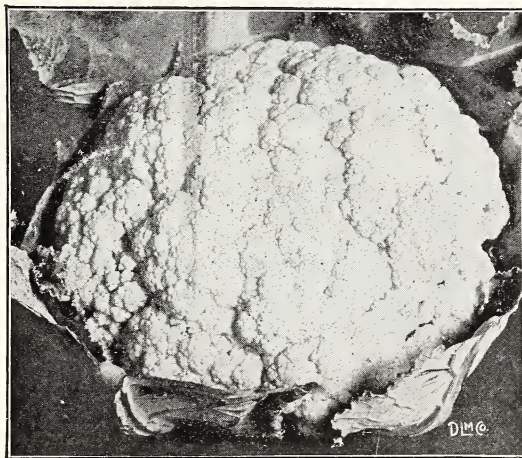

STOWELL'S EVERGREEN—The standard and best known sweet corn. Long ears with deep, broad, sweet grains. Of high quality and much in demand.

½ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.10; 8 qt. \$4.00; 25 lb. \$7.50; 50 lb. \$14.50; 100 lb. \$28.00.

EXTRA EARLY DIGHTON; GOLDEN BANTAM; EARLY CROSBY; GOLDEN GIANT; BLACK MEXICAN; EARLY WHITE EVERGREEN.

½ pt. 20c; pt. 33c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.10; 8 qt. \$4.00; 25 lb. \$7.50; 50 lb. \$14.50; 100 lb. \$28.00.

CAULIFLOWER

Snowball Cauliflower

Culture—1 oz. should produce 2000 plants.

Same as cabbage, and may be grown both early and late. For early crop, sow in hotbeds January or February and transplant after freezing weather. For late crop, sow in May or June. Set plants 24 to 36 inches apart each way. Fertilize with light dressing of Nitrate of Soda and Potash.

SNOWBALL—The finest and most popular early variety, producing heads of good size, firm, compact, solid, and very white. Compact in growth with few short outside leaves.

Pkt. 10c and 20c; ¼ oz. 75c; ½ oz. \$1.40; oz. \$2.75.

DRY WEATHER—Large, medium early variety producing compact heads. Has remarkable heat-resisting qualities. Desirable for growing in dry locations.

Pkt. 10c and 20c; ¼ oz. 75c; ½ oz. \$1.40; oz. \$2.75.

CELERY

Culture—1 oz. for 4000 plants.

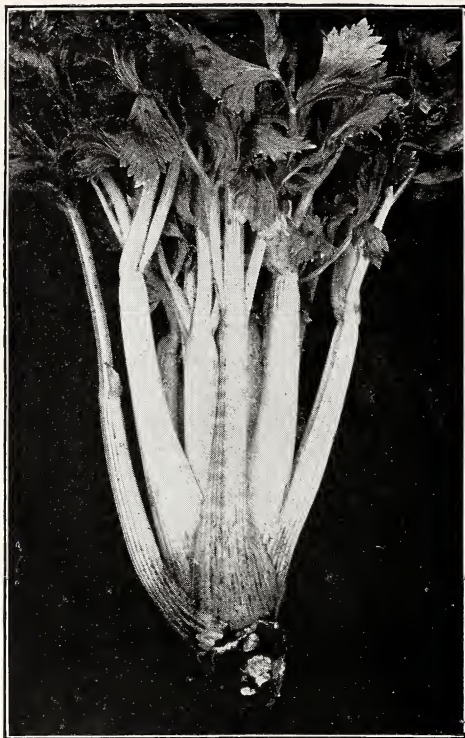

Plant early in hotbed or open ground, providing moist, loose or sandy soil. Ground should be kept moistened. It will be found convenient to lay boards of 3 or 4 inches' width and about 1 inch apart, planting seeds between the boards. This will keep a constant moisture and prevent weeds from choking out the plants when small. After Celery is 2 or 3 inches high, remove boards and transplant or re-set in trench 6 to 9 inches deep. Well-rotted manure in the bottom of trench, covered with ground, will be of advantage. When plants are half grown, a weak application of Nitrate of Soda in water will force growth. Set plants 6 to 8 inches apart. To bleach, gradually hill up the stalks, taking care that no earth falls into the hearts.

WHITE PLUME—A very early excellent variety, easily blanched. A beautiful silvery-white color. A popular variety for first early market.

Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 80c; 8 oz. \$1.40; lb. \$2.50.

EASY BLANCHING—A new variety resembling Golden Self-Blanching except the leaves are green and stalks blanch white instead of yellow. It is more hardy and less liable to blight. Stocky of growth and of medium height. Excellent winter keeper as well as for early use. Of high quality and easy to blanch.

Pkt. 10c; ½ oz. 35c; oz. 60c; 2 oz. \$1.00; 4 oz. \$1.70; 8 oz. \$3.65; lb. \$7.00.

Easy Blanching Celery

FORDHOOK or EMPEROR—Plants dwarf and stocky with large, full, light yellow hearts. Stalks are thick, almost round, of a rich yellow color, and very crisp. Very tender and too brittle for shipment to distant markets. Is considered unsurpassed for its rich, nutty flavor. A superior variety for fall and winter use.

Pkt. 10c; ½ oz. 35c; oz. 60c; 2 oz. \$1.00; 4 oz. \$1.70; 8 oz. \$3.65; lb. \$7.00.

DWARF GOLDEN SELF-BLANCHING—Considered the finest early Celery. Compact, stocky, with yellowish-green foliage. Stalks solid, of a fine nutty flavor. Attains good size. Blanches a uniform golden-yellow color.

Pkt. 10c; ½ oz. 35c; oz. 60c; 2 oz. \$1.00; 4 oz. \$1.70; 8 oz. \$3.65; lb. \$7.00.

GIANT PASCAL; WINTER QUEEN; GOLDEN HEART; SWEET NUT.

Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 80c; 8 oz. \$1.40; lb. \$2.50.

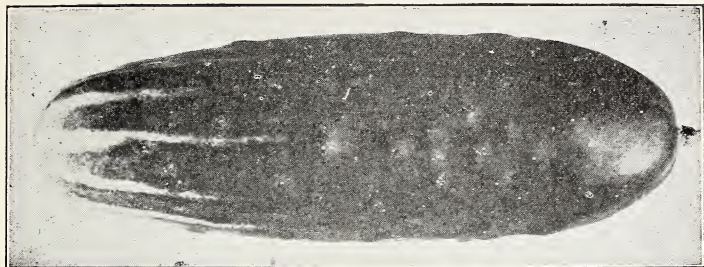

PINK PLUME—Pkt. 10c; ½ oz. 35c; oz. 60c; 2 oz. \$1.00; 4 oz. \$1.70.

CRESS

TRUE WATER—Pkt. 10c; ½ oz. 30c; oz. 50c; 2 oz. 90c; 4 oz. \$1.60.

UPLAND CURLED or PEPPER GRASS—Pkt. 10c; 2 oz. 20c; 4 oz. 35c.

CUCUMBER

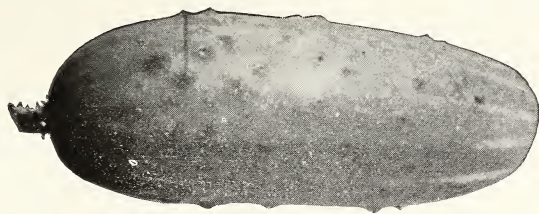

Early Fortune Cucumber (White Spine Type)

Culture—1 oz. to 50 hills; 2 lbs. to 1 acre.

Plant in warm, moist, rich, loamy ground as early as weather is favorable. Plant hills about 4 ft. apart each way. Mix well-rotted manure with soil. Plant thick on account of insects destroying the young plants. Dust with Slug Shot or Hydroxide (Bordeaux-Arsenate of Lead Mixture) to prevent insects and produce vigorous growth. Spray every 10 days until plants start bearing. Thin out when well started and danger of insects is past, leaving 4 or 5 strong stalks remain to each hill. Continue planting for a succession. Gather when large enough for use whether required or not; if left to ripen on vine, plants stop bearing.

EARLY FORTUNE—The finest type of white spine yet produced. Early, very productive, and disease-resistant. Fruit $2\frac{1}{2}$ inches in diameter and 9 inches long, slightly tapering. Flesh white, firm and crisp, with very few seeds. Color rich dark green which does not fade when shipped a long distance.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

Gem Prolific Pickling Cucumber

GEM PROLIFIC PICKLING—Early, symmetrical, uniform and productive pickling variety. Small, $2\frac{1}{4}$ inches in diameter and 5 inches long, square ended, dark green in color. This is a selected strain and popular with growers of small pickles.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

JERSEY PICKLE—A very productive well-known variety. Fruit about 6 inches long and slender.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

IMPROVED LONG GREEN—The standard well-known extra long, late table variety. Grows 12 to 14 inches long, slender. Color dark green. Flesh white and firm.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

CHICAGO PICKLE; DAVIS PERFECTION; JAPANESE CLIMBING; GHERKIN.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

SWISS CHARD

Lucullus

An improved type, upright growth, leaves yellowish-green, much crumpled and curled. Mid-rib and veins white. Stalks thick, broad and flat. A delicious vegetable when cooked and served like Asparagus.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 38c; 8 oz. 60c; lb. \$1.10.

Swiss Chard, Lucullus

CHINESE or CELERY LETTUCE

(Pe-Tsai)

Culture—Grows like Cos Lettuce. Sow seed like Cabbage in February in hotbeds or main crop early in July. Will not stand frost.

Pkt. 10c; ½ oz. 18c; oz. 30c; 2 oz. 50c; 4 oz. 90c; 8 oz. \$1.60; lb. \$3.00.

EGG PLANT

Culture—1 oz. will produce 1000 plants.

Seed is of slow germination and requires moderate heat. Start indoors early in March. Plant outdoors about May 20th, 2 ft. apart each way. Plants are tender and will not stand frost.

BLACK BEAUTY—The leading variety, early, fruit large, good shape, and of rich dark purple color. Productive and thornless.

Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 85c; 4 oz. \$1.60; 8 oz. \$3.10; lb. \$6.00.

ENDIVE

Culture—1 oz. to 150 ft. drill.

An excellent salad which can be used at any season of the year, but is generally used for fall and winter. Used also as greens and for flavoring soups. For early use, plant about April 15th, and for fall in June or July in rows 18 inches apart.

WHITE CURLED; GREEN CURLED; BROAD LEAVED BATAVIAN.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

LEEK

BROAD AMERICAN FLAG—Pkt. 10c; oz. 25c; 2 oz. 40c; 4 oz. 70c; 8 oz. \$1.30; lb. \$2.50.

LETTUCE

Big Boston Lettuce

Culture—1 oz. to 150 ft. drill.

Thrives on nearly all soil, but for crispness should be planted in rich ground, well cultivated before planting. Sow early as ground can be worked. For early use, the cutting varieties are most desirable. Heading varieties should be transplanted in rows 12 to 18 inches apart, plants set in row every 6 or 10 inches.

EARLY CURLED SILESIAN (Cutting)—Early, medium large, crisp and has loose, short, broad leaves, much crumpled and frilled on the border. Color very light green. Quite similar to the Simpson variety.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

MAY KING (Heading).—A splendid extra early compact heading variety similar to Wayahead, leaves light yellowish-green tinged reddish-brown at the end. Heart a rich golden yellow. Quality fine.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

HANSON (Heading)—A well-known, reliable, large, sure-heading spring and early summer variety. Leaves large and broad, blistered and crumpled, and border finely frilled. Color light green. Quality good.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

SALAMANDER (Heading)—Especially desirable during hot summer and early fall. Will succeed under most trying weather conditions where many other varieties fail. Heads medium size, very solid, globular in form. Leaves are thin, tender and crisp, medium green in color. Excellent quality.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

BIG BOSTON (Heading)—One of the most popular varieties. Heads large and very solid. Especially desirable for late fall and cold frame planting. Not recommended for summer. Leaves broad, almost smooth, but wavy at edge, light green.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

NEW YORK or WONDERFUL—A very large late heading variety. Leaves broad, thick, blistered and crumpled, border frilled, color dark green, quality good. Known in California and the West as Los Angeles and shipped into the Eastern market under the name of Iceberg.

Pkt. 10c; ½ oz. 25c; oz. 40c; 2 oz. 70c; 4 oz. \$1.25; 8 oz. \$2.10; lb. \$4.00.

GOLDEN CURLED; BRONZE CURLED; BLACK SEEDED SIMPSON; GRAND RAPIDS; WAYAHEAD; ICEBERG; DENVER MARKET; WHITE COS or ROMAINE.

Pkt. 10c; ½ oz. 15c; oz. 25c; 2 oz. 45c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50,

MUSKMELON or CANTELOUPE

EXTRA EARLY
OSAGE
MUSKMELON

Extra Early Osage Musk Melon

Culture—1 oz. for 50 hills; 2 lbs. per acre.

Plant after May 20th in sandy soil or sod, well enriched. Hills 4 to 6 ft. apart each way. 10 to 12 seeds to hill, 1 inch deep. Cultivate well. Spray with Hydroxide (Bordeaux-Arsenate of Lead) to prevent being destroyed by insects. When plants are beyond danger of insects, thin to 4 or 5 good plants to hill.

EXTRA EARLY OSAGE—Good size, flesh very thick, salmon color, of sweet high quality. Oval shaped. Small seed cavity. We consider it our very best variety.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 75c; lb. \$1.40.

EMERALD GEM—A splendid variety. Fruit deep emerald green in color; globular, distinctly ribbed. Flesh very thick, sweet, and of a deep rich salmon color, having an unusual small seed cavity. Our choice main crop Melon for home garden and local market.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 75c; lb. \$1.40.

EXTRA EARLY KNIGHT; HACKENSACK; HONEYDEW; ROCKY FORD; BANANA; JENNY LIND; HEARTS OF GOLD; PERFECTO.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 75c; lb. \$1.40.

WATERMELON

Culture—1 oz. for 30 hills; 4 lbs. per acre.

Plant after May 20th in rich, sandy or loose soil, when ground is warm. Cultivate as for Muskmelons.

COLE'S EARLY—One of the best earliest. Medium size, hardy, nearly round, dark green rind, striped a lighter shade. Flesh deep pink. Seeds black. Excellent quality.

Pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 50c; lb. 90c.

WATERMELONS—Continued

LONG LIGHT ICING (Gray Monarch)—Long, large, medium early, and productive. Rind pale green with mottled tracing of slightly darker shade. Flesh brilliant crimson and of exceptional quality. Seeds white.

Pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 50c; lb. 90c.

KLECKLEY'S SWEET—Good size, medium early, exceedingly sweet. Oblong in form; dark green. Flesh very bright red, ripening nearly to the rind. Excellent main crop for home garden or local market. Too tender for shipping.

Pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 50c; lb. 90c.

HALBERT'S HONEY; TOM WATSON; IRISH GRAY; ROUND DARK ICING; ROUND LIGHT ICING; PRESERVING CITRON.

Pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 50c; lb. 90c.

MUSTARD

GIANT SOUTHERN CURLED—1 oz. to 100 ft. row.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

OKRA or GUMBO

Culture—1 oz. for 100 hills.

Sow seed thinly in rich ground about middle of May when ground is warm, in rows 3 ft. apart. Cover seed with 1 inch earth. Later thin out stalks to 12 or 18 inches apart. Cultivate freely. Its green pods are used for flavoring soups and stews.

PERKINS' MAMMOTH (Long Green)—Very early and productive. Stalks 3 ft. high. Pods deep green, long, slender and slightly corrugated. A desirable market variety.

Oz. pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 40c; lb. 65c.

ONION SEED

Culture—1 oz. for 150 ft. drill; about 5 lbs. per acre for growing large onions.

Sow as early in spring as ground can be worked, thinly in drills about ¼ inch deep, rows 1 ft. apart. Cover lightly with fine soil and press down with back of spade or light roller. Later thin strongest plants to stand 3 to 4 inches apart. Cultivate freely. Another convenient way is to sow early in hotbed or indoors in boxes and transplant when ground is in condition. This overcomes the difficulty of weeds smothering out the onion.

PRIZETAKER—Extra large, mild, productive and sure cropper. Globe-shaped, light straw color, attractive. Crisp and solid and a good keeper. Most desirable variety for growing large onions from seed. Very highly recommended as the best. Larger than Danvers.

Pkt. 10c; oz. 20c; 2 oz. 35c; 4 oz. 60c; 8 oz. \$1.10; lb. \$2.00.

YELLOW GLOVE DANVERS—Dependable, heavy yielder, excellent color, good keeper. Extensively used for many years. Especially desirable for growing onion sets.

Pkt. 10c; oz. 20c; 2 oz. 35c; 4 oz. 60c; 8 oz. \$1.10; lb. \$2.00.

SILVERSKIN or WHITE PORTUGAL—A large, white, flat onion of mild, pleasant flavor. Hardy and fine-grained. Skin pure white. Extensively grown for sets and largely used as a pickler and for bunching.

Pkt. 10c; oz. 25c; 2 oz. 40c; 4 oz. 75c; 8 oz. \$1.45; lb. \$2.75.

BERMUDA WHITE—Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 85c.

RED WETHERSFIELD—Pkt. 10c; oz. 20c; 2 oz. 35c; 4 oz. 60c.

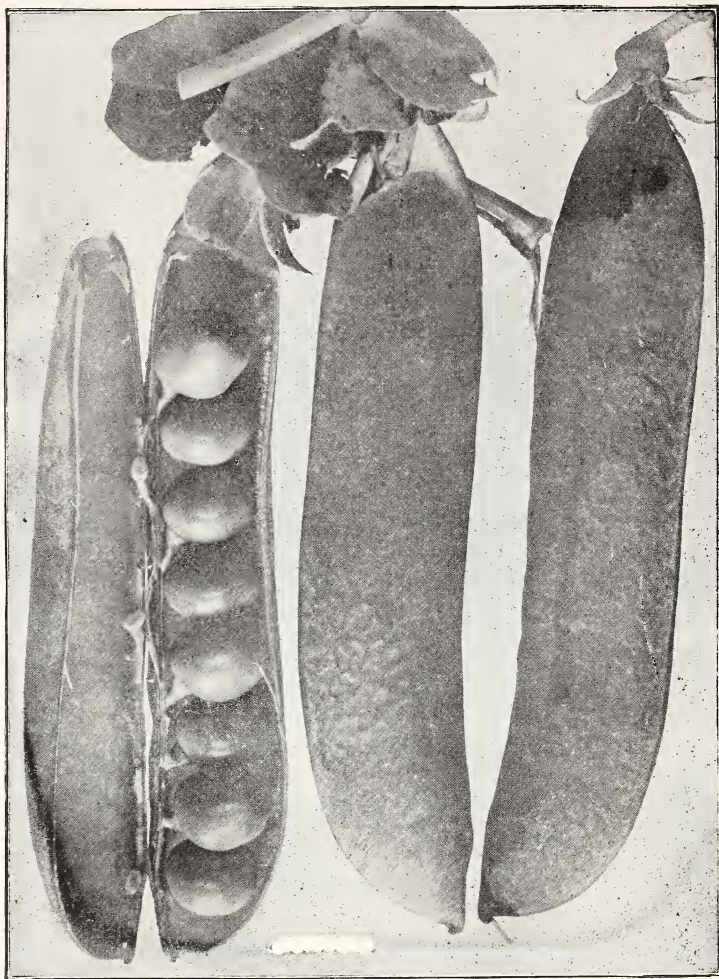

ONION SETS

Culture—Plant early in spring, 3 to 4 inches apart in rows 12 to 15 inches apart.

WHITE and YELLOW—We have selected stock. Market is variable and prices will be quoted on request.

EGYPTIAN or WINTER TOP ONION—These we can supply after middle of August for fall planting. They are used as scullions in spring. Prices on request.

PEAS

Cassel's New Wonder Peas

Culture—1 qt. to 150 ft. row.

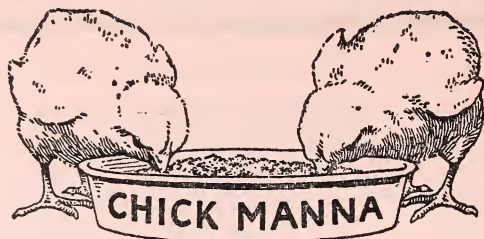

Peas do best in light, rich, loamy soil. Plant the early smooth varieties just as soon as the ground can be worked during March or April. The wrinkled peas are not so hardy as the smooth kinds and may therefore not be planted as early, owing to their rotting more easily. Wrinkled varieties, however, are sweeter and better flavored. Can continue to plant until June 10th, then discontinue on account of hot weather until August 1st, after which the quick-growing early varieties may again be planted. Rows should be 18 to 24 inches apart.

CASSEL'S NEW WONDER—A most excellent main crop pea and very showy. Height of vine 2½ ft., sturdy and strong. Pods 4½ inches long, quite broad, straight, medium green, containing 8 to 9 very large sweet, bright green peas. Unusually productive and our trade has reported remarkable and unsurpassed results.

½ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

Memorandum of Seed Order For 1925

CASSEL'S F. P. C. CHICK MANNA

The original, special prepared first food for starting **Chicks, Turkeys, Pheasants, Ducks**. Produces healthy, vigorous, quick growth. Prevents bowel trouble. For feeding **DRY** or **MOISTENED**. **Satisfaction guaranteed or money back.**

Chick Manna is composed of only wholesome, nutritious, high quality materials that are required for the tender, delicate digestive organs of the little chicks, to meet their entire needs during the most critical period. Forty years of successful results proves its merit.

100 lbs. **\$6.50**; 50 lbs. **\$3.50**; 25 lbs. **\$2.00**; 15 lbs. **\$1.50**; 5 lbs. **60c**; 3 lbs. **40c**; 1 lb. **15c**.

"DEPENDABLE" CHICK GROWING MASH FOOD

Contains Buttermilk and a liberal quantity of table quality Oatmeal and other nutritious food materials. Properly balanced for developing chicks quick, strong and vigorous, and making early layers. It is uniformly mixed and is especially valuable for feeding chicks that have been started on Chick Manna. The use of Chick Manna for starting and our "Dependable" Growing Mash for developing chicks will prove most economical. Feed Growing Mash until about four months old. 100 lbs. **\$3.90**; half ton and over at **\$77.00 per ton**.

"DEPENDABLE" EGG MASH FOOD—A strictly high quality food containing 17 ingredients for increasing egg production and keeping hens in good healthy condition. It is properly balanced and provides all that is necessary for a complete mash food. Contains no ground screenings and is not made of cheap mill by-products. Our customers have been reporting most remarkable results and we do not believe there is a higher quality egg mash food offered on the market at this time. It is entirely a quality feed and the price at which we offer is very reasonable. 100 lbs. **\$3.50**; half ton and over at **\$69.00 per ton**.

MIXED CRACKED GRAINS AND SEEDS FOR CHICKS—Use this in connection with Growing Mash for about four weeks. The materials are all of high quality, strictly sound and sweet, which is so important to the successful raising of chicks. Contains no grit, no shell or screenings, which may be procured at a less cost than chick feed. Is carefully cleaned before being bagged, thus removing fine material. 100 lbs. **\$3.60**; half ton and over at **\$71.00 per ton**.

MIXED GRAINS AND SEEDS FOR DEVELOPING CHICKS—Use in connection with Growing Mash after chicks are four to five weeks old and continue for three months. Contains only sound quality materials, properly balanced for quick growth. No shell, grit, or screenings. Thoroughly recleaned.

100 lbs. **\$3.50**; half ton and over at **\$69.00 per ton**.

MIXED GRAINS AND SEEDS FOR POULTRY (High Quality).

100 lbs. **\$3.50**; half ton and over at **\$69.00 per ton**.

MIXED GRAINS AND SEEDS FOR POULTRY (Special).

100 lbs. **\$3.35**; half ton and over at **\$66.00 per ton**.

MIXED GRAINS AND SEEDS FOR PIGEONS.

100 lbs. **\$3.80**; half ton and over at **\$75.00 per ton**.

MIXED GRAINS AND SEEDS FOR PIGEONS (No Cracked Corn).

100 lbs. **\$3.90**; half ton and over at **\$77.00 per ton**.

Our success in the preparing of mixed foods for chicks and poultry is built on our earnest endeavor to give the highest quality materials in all our high-grade mixtures.

Less than 100 lbs., prices slightly higher. Prices subject to change.

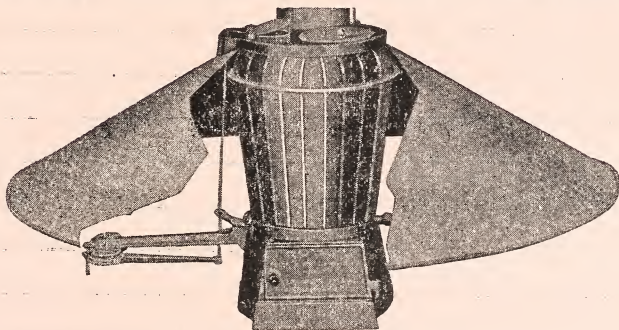

Current Price List on High Quality Feeds

February 12, 1925

The market on Feed is variable, therefore, prices given on this sheet are values at the time of our going to press, February 12, 1925, and are strictly subject to change without notice; also subject to our confirmation and stock being unsold on receipt of order. Ask for firm quotations when ready to buy. All bags are included without extra charge and prices are f. o. b. Lansdale. Terms Cash at time of getting feed. Ton prices 5c per 100 lbs. less. On quantities of less than 100 lbs., prices are slightly higher.

ROYAL CHICK BROODER STOVES

A new improved type Brooder Stove, equipped with Rocker Grate, Self-Cleaning and will not clog. Burns hard or soft coal or coke. Has large coal capacity and wide grate with fire pot straight up and down and ribbed to produce more radiation and take care of expansion and contraction. It has large pipe to prevent clogging from coal tar or soot, and double draft control which is absolutely necessary in burning very coal. Temperature is under efficient control and the thermostats control very accurately not only the check draft on top the stove but the direct draft to the fire under the grate.

42-inch hoover, coal capacity 35 lbs., usually called 500-chick size, our cash price, \$20.00.

52-inch hoover, coal capacity 46 lbs., usually called 1000-chick size, our cash price, \$25.00.

Record of Growing Crops, Season 1925

Make note of varieties proven most profitable and keep for reference next season

"DEPENDABLE" VEGETABLE SEEDS

PEAS—Continued

MAMMOTH PODDED PROLIFIC (Extra Early)—Matures extra early, productive, robust, heavy, medium green. Not a wrinkled variety. Height 3 ft. Pods light green, 3 to 4 inches long. We recommend this especially for planting in the early spring during March and April on account of it being a smooth variety which will withstand cold, wet weather better.

½ pt. 18c; pt. 32c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.00; 15 lbs. \$3.60; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

CASSEL'S FAVORITE EARLY—A large podded dwarf variety, vine 16 inches high, sturdy, dark green and productive. Pods dark green, 4 inches long, often containing 8 large, dark green peas. The quality is excellent and we recommend this as the best of the early dwarf wrinkled varieties.

½ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

ECLIPSE—Very fine, productive, high quality main crop following New Wonder. Height 3 ft. Vine and foliage sturdy and heavy. Pods dark green, especially large, 5 inches long. Contains 9 extra large, medium green peas of a most delicious flavor.

½ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

PROLIFIC EARLY MARKET; LITTLE MARVEL; GRADUS; WORLD'S RECORD; THOMAS LAXTON; SUTTON'S EXCELSIOR; DARK POD TELEPHONE; PRIDE OF THE MARKET.

½ pt. 18c; pt. 32c; qt. 60c; 2 qt. \$1.10; 4 qt. \$2.00; 15 lbs. \$3.60; 25 lbs. \$5.50; 50 lbs. \$10.50; 100 lbs. \$20.00.

RICE'S EARLY DWARF; PETER PAN; BLUE BANTAM; LAXTONIAN; PRIZEWINNER; MAMMOTH MELTING SUGAR EDIBLE POD.

½ pt. 22c; pt. 38c; qt. 70c; 2 qt. \$1.30; 4 qt. \$2.45; 15 lbs. \$4.35; 25 lbs. \$6.75; 50 lbs. \$13.00; 100 lbs. \$25.00.

PEPPER

Culture—1 oz. should produce 2000 plants.

Sow in hotbeds or indoors from February to April. Transplant middle of May if weather is favorable. Cover seed with ½ inch soil.

CHINESE GIANT—One of the very largest of the mild red varieties. Short, stocky growth. Fruits pendent, thick, blocky and square-ended. 4 to 5 inches in diameter and of equal length. Color brilliant glossy scarlet.

Pkt. 10c; ½ oz. 30c; oz. 50c; 2 oz. 90c; 4 oz. \$1.70; 8 oz. \$3.20; lb. \$6.00.

RUBY KING—One of the most profitable and satisfactory varieties for the home or market garden. Early, productive, of dwarf, compact, upright growth. Fruits often 4 to 6 inches long by 3 to 4 inches thick, of a bright ruby-red color. Flesh thick, sweet and mild.

Pkt. 10c; ½ oz. 20c; oz. 30c; 2 oz. 55c; 4 oz. \$1.00; 8 oz. \$1.85; lb. \$3.50.

NEAPOLITAN—A very early and productive large variety. One of the sweetest and most mild. Fruit of upright growth, 4 inches long and 2 inches thick. Color bright red.

Pkt. 10c; ½ oz. 20c; oz. 30c; 2 oz. 55c; 4 oz. \$1.00; 8 oz. \$1.85; lb. \$3.50.

MAMMOTH GOLDEN QUEEN—The largest of the sweet yellow peppers. Mild flavor, golden-yellow color.

Pkt. 10c; ½ oz. 20c; oz. 35c; 2 oz. 65c; 4 oz. \$1.10; 8 oz. \$2.10; lb. \$4.00.

CAYENNE—Pkt. 10c; oz. 35c; 4 oz. \$1.10.

PARSLEY

Culture—1 oz. to 150 ft. row.

Sow thickly early in spring in rows 12 inches apart. Cover with $\frac{1}{4}$ inch soil, pressing down after sowing. Later thin out stalks to 4 to 6 inches apart. Seed germinates very slowly. Used as flavoring for soups and as a garnish.

CHAMPION MOSS CURLED—Leaves uniform dark green, compact, finely cut and closely curled, resembling bunch of moss. A desirable variety.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

FINE CURLED or DOUBLE—A standard well-known dwarf variety. Leaves deeply cut and finely crimped.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

PLAIN LEAVED—Leaves are flat, deeply cut but not curled. Dark green color.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

LARGE ROOTED HAMBURG—The edible roots of this variety resemble small thin Parsnips in shape and color and are used for flavoring soups. Leaves are plain.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

PARSNIP

Culture—1 oz. for 100 ft. row; 5 lbs. per acre.

Sow thickly in April or early May as Parsnips require long season to mature. Cultivate same as Carrot. Dig in autumn and store for winter, or they may be left in ground until following spring, which improves their flavor.

IMPROVED HOLLOW CROWN—A well-known variety. Roots smooth, usually 15 inches long, 3 inches in diameter at the top. Tender and sugary. White.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 35c; 8 oz. 60c; lb. \$1.00.

K A L E

or Borecole

DWARF PURPLE; TALL SCOTCH.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

KOHL-RABI

Culture—1 oz. to 250 ft. drill.

Belongs to the cabbage family. Forms a turnip-shaped bulb above the ground. Used as Turnips. Cultivate same as cabbage. Sow early in spring or in June and July for fall use.

EARLY WHITE VIENNA; EARLY PURPLE VIENNA.

Pkt. 10c; oz. 25c; 2 oz. 45c; 4 oz. 85c; 8 oz. \$1.60; lb. \$3.00.

HORSE RADISH ROOTS

1000, \$8.00; 100, \$1.25; less than 100 @ 2c each.

NORCROSS GARDEN WEEDERS

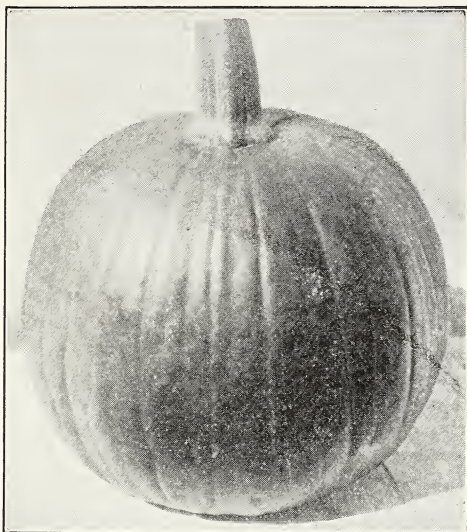

3 Prong Short Handle 40c

3 Prong Long Handle, 75c

5 Prong Long Handle, \$1.00

PUMPKIN

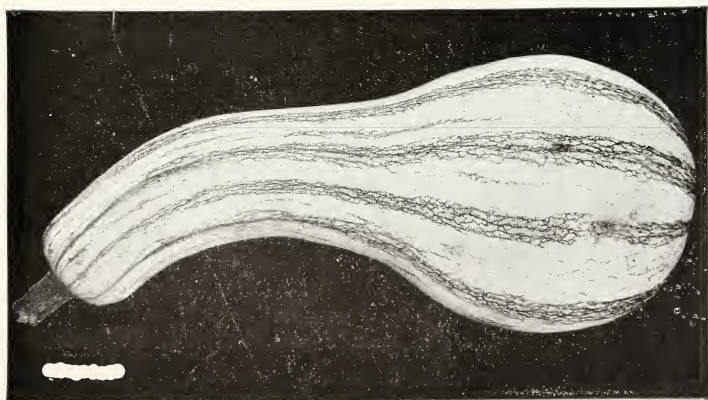

Sweet or Sugar Pie Pumpkin

Culture—1 oz. to 20 hills; 3 to 4 lbs. per acre.

Usually grown in cornfields, but if grown as a separate crop, plant in hills 8 to 10 ft. apart each way when ground is warm. Cultivate often until vines begin to run. Cut Pumpkins after vines are dead, leaving 3 to 4 inches of stem attached, and store in dry place.

EARLY SUGAR or NEW ENGLAND PIE—Fruits small, round, flattened at the ends and slightly ribbed. Skin and flesh deep orange-yellow. Flesh very thick and of high quality.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

Cushaw Pumpkin

GOLDEN CUSHAW—Crook-necked type. Color golden-yellow. Large, good quality.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

PUMPKINS—Continued

JAPANESE PIE—Neck-shaped, somewhat like Cushaw. Skin deep green with dark stripes. Flesh deep yellow and of high quality. Seeds sculptured like Japanese letters.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

KING OF THE MAMMOTH—The giant among the pumpkins. Very large, 2 ft. or more in diameter. Fruit round and flattened. Skin salmon-orange. Flesh bright yellow and very thick.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

TENNESSEE SWEET POTATO—Medium size, nearly bell-shaped, with neck slightly crooked. Skin creamy white, slightly striped green. Flesh creamy white, deep fine grain, and excellent quality.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

LARGE CHEESE or KENTUCKY FIELD (round, creamy buff); **CONNECTICUT FIELD** (oblong, reddish orange).

Oz. pkt. 10c; 2 oz. 18c; 4 oz. 30c; 8 oz. 50c; lb. 85c.

RADISH

Vick's Scarlet Globe Radish

Culture—1 oz. to 100 ft.

For very early use sow in frames in February, making successive sowings every two or three weeks. In April, plant in open ground 1 inch deep, in light, rich, sandy soil, selecting a warm or sheltered location and sow at intervals during the season. Winter varieties should be planted in mid-summer and early fall. Radishes will not do well in heavy, hard ground.

RADISH—Continued

VICK'S SCARLET GLOBE—One of the earliest of the forcing radishes and does equally well outside. Roots of fair size, globe-shaped and with a very small top. Always crisp and tender. Color bright scarlet.

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

CHARTIER—An excellent variety, 7 to 8 inches long, rather thin, deep scarlet at top, shading off to pure white at tip. A well-known and leading variety.

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

ICICLE—The leading long early white radish. About 6 inches long and white throughout. The favorite long radish with our trade.

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

WHITE STRASBURG—An excellent variety especially for late spring and summer growing, doing better in hot weather than most radishes. Roots long, thick, white, remaining solid for a long time.

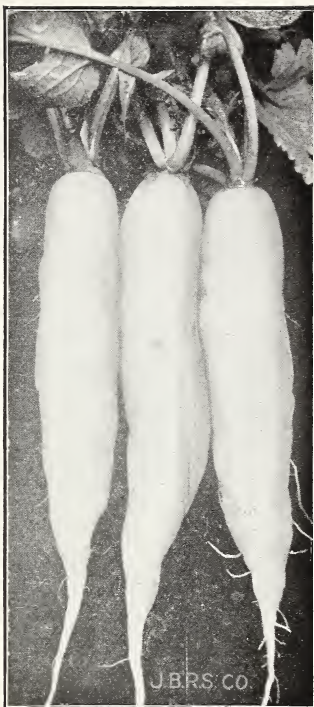

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

WHITE CHINESE or CELESTIAL WINTER—Roots 6 to 8 inches long, thick, cylindrical, and smooth. Popular wherever known. Skin and flesh very white and attractive.

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

WHITE TIPPED SCARLET; WHITE LADYFINGER; EARLY WHITE TURNIP; FRENCH BREAKFAST; BLACK SPANISH; SCARLET WINTER.

Pkt. 10c; oz. 12c; 2 oz. 20c; 4 oz. 35c; 8 oz. 60c; lb. \$1.10.

ICICLE RADISH

PEANUTS

4 oz. 10c; 8 oz. 18c; lb. 30c.

RHUBARB SEED

Culture—Plants easily grown from seed. Sow in drills 12 to 18 inches apart and later transplant. 1 oz. to 100 ft.

VICTORIA—Pkt. 10c; oz. 20c; 2 oz. 35c; 4 oz. 60c; 8 oz. \$1.00; lb. \$1.80.

RHUBARB ROOTS

Culture—Plant 2 ft. apart in rows 4 ft. apart. Cultivate well and top dress liberally.

10c each; doz. \$1.00; 100 \$5.00. Extra size clumps, 25c each. Market variable. Prices subject to change.

RUTABAGA

GOLDEN NECKLESS; IMPROVED PURPLE TOP YELLOW; BLOOMSDALE SWEDE. Pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 40c; lb. 70c.

SPINACH

Bloomsdale Savoy Spinach

Culture—1 oz. to 100 ft.; 10 to 12 lbs. per acre.

Sow thinly in rows 12 to 15 inches apart as early in spring as possible. For fall use, sow from August 1st to September 15th. Thin out plants to every 4 inches.

BLOOMSDALE SAVOY—A quick-growing hardy variety and one of the best for market and canning. Plants of upright growth with tendency to go quickly to seed in hot weather. Therefore, not desirable for spring use, but is the favorite variety for fall and winter use. Leaves are crumpled and blistered, of a glossy deep green color.

Pkt. 10c; 2 oz. 15c; 4 oz. 20c; 8 oz. 30c; lb. 45c; 5 lb. \$1.90; 10 lb. \$3.50.

LONG STANDING—A late maturing very long standing variety and a favorite for spring and summer planting, as it stands hot weather very well. The plant is large, with thick, deep green leaves.

Pkt. 10c; 2 oz. 15c; 4 oz. 20c; 8 oz. 30c; lb. 45c; 5 lb. \$1.90; 10 lb. \$3.50.

LONG SEASON—An excellent second early variety for planting in spring, having thick dark green crumpled leaves. Grows to a large size and will remain in condition for use a long time.

Pkt. 10c; 2 oz. 15c; 4 oz. 20c; 8 oz. 30c; lb. 45c; 5 lb. \$1.90; 10 lb. \$3.50.

NEW ZEALAND—Entirely distinct from the true Spinach. Plant tall and spreading, with numerous side shoots. Leaves medium green, rather small and pointed. Grows well in hot weather and under adverse conditions.

Pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 45c; lb. 85c.

SALSIFY

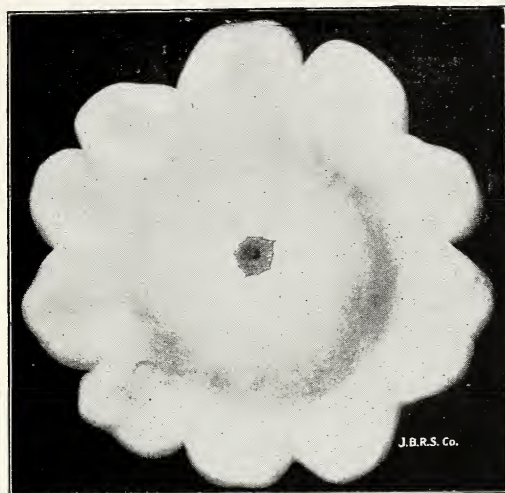

or Vegetable Oyster

Culture—1 oz. for 75 ft. row.

Sow seed early in spring in rows 12 inches apart and 1 inch deep, thinning out plants every 6 inches.

MAMMOTH SANDWICH ISLAND—Pkt. 10c; oz. 25c; 2 oz. 40c; 4 oz. 70c; 8 oz. \$1.30; lb. \$2.50.

SQUASH

Mammoth White Bush Squash

Culture—1 oz. to 25 hills; 3 to 4 lbs. per acre.

Plant 8 to 10 seeds to the hill, 4 ft. apart, about May 10th for summer bush varieties, and 8 to 10 ft. apart about July 1st for winter varieties. Thin out to 4 strong plants per hill. Spraying with Hydroxide (Bordeaux-Arsenate of Lead) will be of much help to prevent plants from being destroyed by insects while young.

EARLY WHITE BUSH (Patty Pan)—A well-known very early variety of dwarf habit and upright growth. Surface nearly smooth. Color creamy white. Fruit flattened and scalloped, about 8 inches in diameter. One of the leading varieties for home gardens and market.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

GOLDEN HUBBARD—A desirable variety. Shell is medium warted. Hard, strong, and a rich orange-red color. Flesh deep orange, dry, and of best quality. An excellent keeper.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

ITALIAN VEGETABLE MARROW or COCOZELLA—A summer variety of bush habit. Fruit is oblong, ribbed, dark green marbled with yellow and dark green stripes. A delicate and fine flavored variety. The young fruit while green is excellent for slicing and frying like egg plant.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

GOLDEN SUMMER CROOKNECK—A standard early and productive summer variety. Fruit about 1 ft. long, moderately warted and of a bright yellow color.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

IMPROVED HUBBARD—A standard winter squash. Fruit large, heavy, and moderately warted. Shell dark bronze-green with light green markings. Flesh bright orange-yellow, fine grained, thick and dry.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

MAMMOTH CHILI—Grown for exhibition and stock feeding. Extra large, oblong, rich orange color. Skin smooth with broad open netting.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 45c; 8 oz. 80c; lb. \$1.50.

SUNFLOWER

Pkt. 10c; lb. 15c.

TOMATO

Tomato

Culture—1 oz. should produce about 2500 plants.

For early crop, plant seed under glass or in house during February, giving seedlings plenty of light for rapid development. Transplant in open ground after danger of frost, 3 ½ ft. apart each way. For main crop, seed may be sown any time until the middle of June. Spraying will help prevent blight.

EARLIANA—The earliest and best of the very early Tomatoes. Dwarf, very productive for so early a sort. Of fair size, round, smooth and solid. Produced in clusters in center of plant. Color bright scarlet.

Pkt. 10c; oz. 30c; 2 oz. 50c; 4 oz. 95c; 8 oz. \$1.80; lb. \$3.50.

CHALK'S EARLY JEWEL—An exceptionally fine early variety coming between Earliana and Stone. Uniformly smooth, round and solid. Maintain their size longer than most sorts. Crimson in color. Excellent quality for table use and canning.

Pkt. 10c; oz. 30c; 2 oz. 50c; 4 oz. 95c; 8 oz. \$1.80; lb. \$3.50.

RED ROCK—A most dependable main crop variety of the Matchless type for home and canning trade. Productive, large, smooth, very solid, cardinal red. This is a well-known variety.

Pkt. 10c; oz. 30c; 2 oz. 50c; 4 oz. 95c; 8 oz. \$1.80; lb. \$3.50.

CASSEL'S SPECIAL GIANT RED—The largest of the bright red Tomatoes. Very solid, attractive, and a most desirable variety.

Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 80c; 4 oz. \$1.50; 8 oz. \$2.85; lb. \$5.50.

MATCHLESS; STONE; JOHN BAER.

Pkt. 10c; oz. 30c; 2 oz. 50c; 4 oz. 95c; 8 oz. \$1.80; lb. \$3.50.

PONDEROSA; RED CHERRY; PEAR-SHAPED YELLOW.

Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 80c; 4 oz. \$1.50; 8 oz. \$2.85; lb. \$5.50.

GOLDEN QUEEN; STRAWBERRY or WINTER HUSK (Ground Cherry).

Pkt. 10c; ½ oz. 20c; oz. 35c; 2 oz. 65c; 4 oz. \$1.20; 8 oz. \$2.30; lb. \$4.50.

TURNIP

Culture—1 oz. to 200 ft.; 1 to 2 lbs. per acre.

Sow early in spring before hot weather and for main crop sow in July and August, either broadcast or in drills 2 ft. apart. If in rows, thin out to prevent overcrowding.

LARGE RED TOP GLOBE—Almost perfect globe in form. Flesh and skin white, red or purple on top above the ground. Fine grained and sweet. Most well-known and a superior variety.

Pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 40c; lb. 70c; 5 lb. \$3.25; 10 lb. \$6.00.

PURPLE TOP FLAT; AMBER GLOBE; YELLOW ABERDEEN; SEVEN TOP; COW HORN; RUTABAGA

Pkt. 10c; 2 oz. 15c; 4 oz. 25c; 8 oz. 40c; lb. 70c; 5 lb. \$3.25; 10 lb. \$6.00.

HERBS

FERTILIZERS

Market variable. Prices subject to change

WIZARD BRAND SHEEP MANURE makes plants grow and produces profitable crops because it supplies your soil with large quantity plant food and organic matter, at the same time making it loose and mellow. It is prepared from specially selected sheep manure. Free from inferior matter and rubbish. It is thoroughly dried and sterilized by a special direct heat process, making a concentrated and convenient soil enricher with the danger of weed seeds eliminated through the sterilization. **WIZARD BRAND** has been well known for many years as the most dependable and effective brand of sheep manure. Especially valuable for lawns, vegetable and flower gardens.

2 lb. 15c; 5 lb. 32c; 10 lb. 55c; 25 lb. 95c; 50 lb. \$1.70; 100 lb. \$2.95; 500 lb. \$14.00; 1000 lb. \$26.00; 2000 lb. \$50.00.

COW MANURE, Shredded—Same price as Wizard Brand Sheep Manure.

(The animal base in fertilizers we offer consists of tankage, blood and bone)

WONDER WORKER FERTILIZER—An unusually high-grade animal base fertilizer for growing all vegetable crops. Analysis: 10% ammonia, 6% phosphoric acid, 2% potash.

100 lb. \$3.50; 50 lb. \$1.90; 25 lb. \$1.10; 10 lb. 50c; 5 lb. 30c.

MATCHLESS MARKET GARDENER'S FERTILIZER—Animal matter base. Analysis: 5% ammonia, 8% phosphoric acid, 7% potash.

100 lb. \$2.75; 50 lb. \$1.50; 25 lb. 85c; 10 lb. 40c; 5 lb. 25c.

POTATO GROWER FERTILIZER—Animal matter base. Analysis: 4% ammonia, 8% phosphoric acid, 5% potash.

100 lb. \$2.50; 50 lb. \$1.40; 25 lb. 80c; 10 lb. 35c; 5 lb. 22c.

CORN AND OATS SPECIAL—Animal matter base. Analysis: 3% ammonia, 8% phosphoric acid, 10% potash.

100 lb. \$2.50; 50 lb. \$1.40; 25 lb. 80c; 10 lb. 35c; 5 lb. 22c.

BONE MEAL FERTILIZER—5 lb. 23c; 10 lb. 40c; 25 lb. 85c; 50 lb. \$1.60; 100 lb. \$3.00; 500 lb. \$14.25.

NITRATE OF SODA—5 lb. 30c; 10 lb. 55c; 25 lb. \$1.25; 50 lb. \$2.25; 100 lb. \$4.25. Ton price on request.

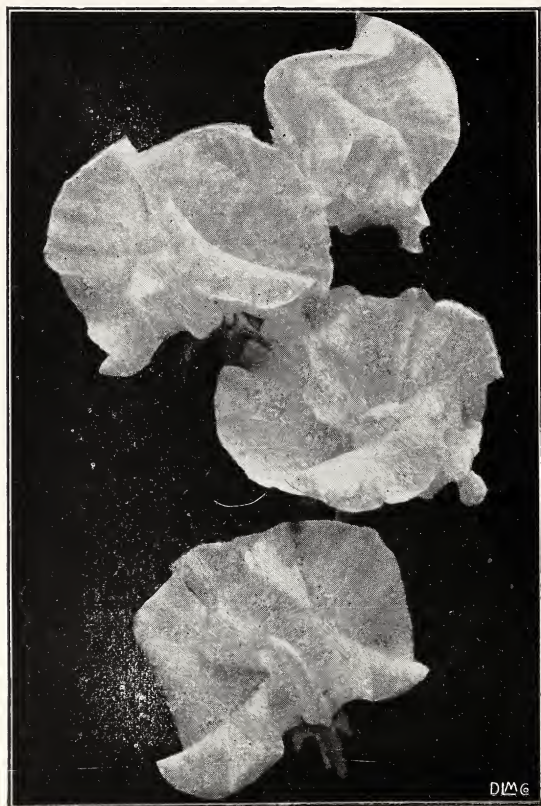

HUMUS, LEAF MOULD—5 lb. 20c; 10 lb. 35c; 25 lb. 70c; 50 lb. \$1.20; 100 lb. \$2.00.

SPRINGFIELD ROSE FOOD—Lb. 8c; 2 lb. 15c; 5 lb. 32c; 10 lb. 55c.

FLOWER SEEDS

We carry in stock the following most desirable varieties Flower Seeds. All in 10c packets. Prices on larger quantities on request. Three packets of any one variety Flower Seeds for 25c.

SWEET PEAS

Spencer Sweet Peas

Culture—1 oz. to 20 ft. row.

Early in spring make a trench 3 to 4 inches deep in loose, rich, mellow ground. Arrange so that water will not stand in the trench. Cover with only 1 inch soil at first. Later cultivate and gradually fill up the trench. If ground is heavy, a little sand at the bottom of the trench and seed covered with sand will be of much advantage. When 4 inches high, prepare support for the vines, preferably a wire netting firmly supported by sticks. Keep well moistened during dry weather.

SPENCER—Large flowering, finest mixture. A variety of most desirable colors.

Pkt. 10c; oz. 25c; 2 oz. 40c; 4 oz. 75c; 8 oz. \$1.35; lb. \$2.50.

NASTURTIUM

TALL MIXED; DWARF MIXED.

Pkt. 10c; oz. 15c; 2 oz. 25c; 4 oz. 40c; 8 oz. 70c; lb. \$1.25.

Cassel's "Dependable" Lawn Grass Seed

The 100 lb. price applies on quantities of 11 lbs. and over.
10 lbs. and less at pound price.

Our special brands of Lawn Grass Seed are carefully prepared from highest quality seeds of varieties especially adapted to the condition for which we offer them.

In starting a lawn a quick-greening grass is usually desired for appearance and is of advantage in order to smother out the weeds that will always naturally grow in new ground. For this we have prepared our **Green Quick Lawn Grass Seed**, which is comprised of a variety of grasses and clovers suitable for giving a velvety green cover within a short time after planting and the reports we have received from our customers prove it to give very pleasing results.

When the lawn has been well established with a good cover of grass from the Green Quick Lawn Seed, it is then advisable to add additional seed in the early spring of each year so that the lawn may be well kept up with a fine velvety cover and for this purpose of top dressing with seed we recommend our **Evergreen Lawn Grass Mixture** which will give splendid results and pleasing appearance, although we do not recommend this Evergreen Mixture for starting lawns.

Good seed is of great importance. However, to secure a good lawn, care should be taken in the selection and preparation of the top soil. There should be good, rich, loose ground to the depth of 5 or 6 inches from the level of the lawn and the land should be well drained and graded. Have ground well pulverized and an addition of Bone Meal and Wizard Sheep Manure over the surface, raked in before seed is sown, will be of much advantage. Sow seed at rate of 2 lbs. for 35 ft. square, which is equal to 1225 sq. ft.; 60 to 100 lbs. per acre. For top dressing in the spring of the year only half this quantity is needed.

In seeding a new lawn where the sower is not well experienced in sowing lawn seed, it will be of advantage to divide the seed in two parts and sow first in one direction, lengthwise, and then sow the second part crosswise. This will avoid a streaky lawn by giving a more even application of seed.

After seed is planted, roll the ground so as to retain moisture to the surface of the lawn.

New lawns should be started during spring and early summer, or after middle of August, but not during the hot summer weather. After seed has started, another application of Wizard Sheep Manure may be given to produce more rapid growth. Bone Meal and Sheep Manure should be added each spring to continue a good lawn. If lawn is watered in summer, it should be thoroughly soaked frequently. A light application of water is harmful, as the hot sun will scorch the newly sprouted seed.

GREEN QUICK LAWN SEED—Most desirable for new lawns, embankments and shady places.

Lb. 35c; 100 lbs. \$33.00.

EVERGREEN LAWN SEED—Especially desirable for seeding during spring and early summer to maintain a lawn that has already been established.

Lb. 50c; 100 lbs. \$48.00.

KENTUCKY BLUE GRASS—There are many grades of this seed. However, it is our rule to handle only the highest qualities. Lower qualities can be sold at a less price, but the application of a smaller quantity of high grade seed we believe more advisable than a large quantity of low priced seed.

Lb. 48c; 100 lbs. \$46.00.

RED TOP or HERD GRASS—Extra re-cleaned.

Lb. 22c; 100 lbs. \$20.00.

WHITE DUTCH CLOVER

Lb. 65c; 100 lbs. \$63.00.

PERMANENT PASTURE MIXTURES MADE TO ORDER—These we mix on special order to suit soil conditions and individual needs,

Flowering Bulbs For Spring Planting

We have in season leading most attractive varieties Flowering Bulbs as follows. Varieties and prices on request.

CANNAS

GLADIOLI

CALADIUMS

PEONIES

DAHLIAS

TUBEROSES

Flowering Bulbs For Fall Planting

We import direct from Holland extra select stock, most beautiful varieties, Flowering Bulbs for fall planting, due to arrive about September 15th.

Tulips Hyacinths Narcissus or Daffodils

Also Crocus, Paper White Narcissus, Chinese Sacred Lilies and Freesias.

FARM SEEDS

Grasses not listed hereon will be quoted on request

We carry a full line of carefully selected highest purity Farm Seeds and we are in position to satisfy the most critical trade.

The markets on Farm Seeds are variable and therefore prices cannot be held good for any length of time. The quotations named below are prices ruling at time of issuing this catalog. However, these prices are strictly subject to change without notice and are also subject to our confirmation and stock being unsold on receipt of order. Better ask for firm quotations when ready to buy.

All bags are included without extra charge and prices are f. o. b. Lansdale. Values are all based on strictly cash prices at time of getting seed.

The bushel or 100 lb. price applies on quantities of 11 lbs. and over. 10 lbs. and less at the pound price.

SEED POTATOES

Aroostook County, Maine Grown

We have a reliable source of supply in the central part of the Potato section of Aroostook County, Maine, from which we have been securing our selected seed stock for a number of years. Our first car should arrive about the middle of March and prices we are quoting now are for immediate booking for shipping or loading from car on arrival. Market is variable and uncertain, therefore prices are strictly subject to change, confirmation, and unsold.

Selected Stock

RED BLISS TRIUMPH; HOULTON EARLY ROSE; STATE OF MAINE; GOLD COIN; SIR WALTER RALEIGH

10-peck sack, **\$4.50**; bu. **\$2.05**; ½ bu. **\$1.13**; peck, **61c**; ¼ peck, **36c**;
¼ peck, **19c**.

Certified Stock

IRISH COBBLERS; GREEN MOUNTAINS; SPAULDING ROSE

10-peck sack, **\$5.00**; bu. **\$2.25**; ½ bu. **\$1.23**; peck, **66c**; ¼ peck, **38c**;
¼ peck, **20c**.

Michigan Grown

RUSSETS—Phone or write for price about March 1st. We will have an attractive offer.

EXTRA RE-CLEANED SEED OATS

Market is variable, therefore, when ready to buy please phone or write for firm quotations which we believe will be attractive and merit your order.

Sow $2\frac{1}{2}$ to 3 bu. per acre.

ABUNDANCE SWEDISH SELECT—A most valuable variety of which we have had excellent reports from farmers in this section to whom we have sold same. Under favorable conditions will grow to a good height, producing a heavy, large grain. It is a productive branching variety.

SILVER MINE—Has proven a desirable early variety of the old standard sort. It is hardy and prolific, being preferred by rolled oats manufacturers, owing to the thinness of the hull. Straw is thick and strong, of a branching type.

WHITE RUSSIAN SIDE OATS—This variety has been in much demand recently and has met with favorable results. The growth is somewhat on the manner of a horse's mane, or side type. Hull is very thin. Heavy yielder. Straw is strong and stiff. Ripens mid-season.

RE-CLEANED SELECTED WESTERN—This is the type of Oats coming from the middle western States used much throughout eastern Pennsylvania, although not as large and fancy a berry as some of the above-named varieties. However, price is usually on a lower level.

SEED CORN

Owing to the unusual growing and harvesting conditions of the Corn crop last year, Seed Corn of good germination will be unusually scarce and consequently higher in price. We would urge that special care be given to the selection of your Seed Corn for 1925.

All our Corn is tested and proven to be of high germination before we offer same to our trade. We are extremely particular about the germination of our Corn and those securing our stock should have excellent results.

Market is variable and prices are strictly subject to change and unsold.

$\frac{1}{2}$ bushel at bushel rate. All bags included

MONTGOMERY COUNTY SURECROP, Extra Select Stock—This variety has met with great favor among our Montgomery and Bucks County farmers and is increasing in popularity. Produces large ears, often 12 inches long, with a broad, medium-long kernel. Light yellow or cream color on the cap or outside of the ear, and a medium yellow dent. Usually matures in about 100 days. Large fodder, and is a Corn that will do well on poorer ground than most Corns. This type of Corn has sometimes been called Poor Man's Corn on account of its productiveness on light soil. This type is also sometimes known as Long Ear White Cap Yellow Dent and 100-day Bristol. We strongly recommend this variety for general use. Is also desirable for a yellow ensilage Corn for silos.

$\frac{1}{2}$ pk. 63c; pk. \$1.15; bu. \$4.25.

CASSEL'S EARLY FAVORITE (90 day)—This has truly been a favorite with our trade for many years as an early Corn. The ears, while of good size, about 10 inches, are not so long and thick as Montgomery County Surecrop, but is fully 10 days earlier in maturity. We have found it to be the earliest good-sized ear Corn grown in this section. $\frac{1}{2}$ pk. 63c; pk. \$1.15; bu. \$4.25.

FARMER'S RADIO SPECIAL—A choice, long-ear, yellow dent Corn. Fills out well to the end, deep, broad, rich yellow grains, and under favorable conditions should produce a crop that will be both pleasing and profitable and is well worth special note. Requires about 110 days for maturity. Ask for price.

LANCASTER COUNTY SURECROP—A Corn that has proven quite satisfactory for giving a crop on ordinary soil. Ear is long, matures in 100 days, grain is darker in color, otherwise similar to our Montgomery County Surecrop. Our customers report, however, a preference for Montgomery County Surecrop over the Lancaster County Surecrop. This is sometimes used as an ensilage Corn. Ask for price.

SEED CORN—Continued

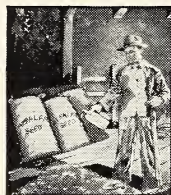

PENNA. YELLOW FLINT; REID'S YELLOW DENT; LONG'S CHAMPION.
Ask for prices.

VIRGINIA ENSILAGE—This variety continues to gain in popularity for ensilage purposes. Makes unusually large growth of broad, thick, succulent fodder. Our dairymen are recognizing the merits of this as a silo filler and the demand with us has been increasing yearly. Very productive and may be used for green feeding or silo ensilage. Our stock is bred especially for ensilage purposes and grown in Virginia. We recommend it as most desirable.

Bu. \$4.50; pk. \$1.18; ½ pk. 64c.

EUREKA ENSILAGE—A well-known, large fodder, heavy yielding, white ensilage corn. Ears are long, often two to the stalk. Should be grown on good land. Ask for price.

POPCORN—Pkt. 10c; lb. 15c.

Inoculate Your
Alfalfa, Clovers, Cow Peas, Soy Beans, Vetches
and
Other Legume Crops
WITH
Mulford Cultures
FOR LEGUMES

Small Cost Large Returns Easy to Use No Labor Expense

MULFORD CULTURES contain pure, tested strains of active, vigorous, nitrogen-fixing bacteria for inoculating seeds of legumes or soil. Enormous numbers of these very valuable and desirable bacteria are thus available to you in every package of **MULFORD CULTURE** and may readily be applied to your seed. The sealed bottle insures purity.

Legumes maintain soil fertility and rejuvenate over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your crop.

Recommended by the U. S. Department of Agriculture and many agricultural experiment stations.

Always specify what crop you want to inoculate, as there is a different strain of bacteria for each legume.

Following are the leading strains:

**ALFALFA
ALSIKE
CRIMSON CLOVER
WHITE CLOVER
SWEET CLOVER
RED CLOVER
COW PEAS
SOJA BEANS
CANADA FIELD PEAS
VETCH
GARDEN PEAS
GARDEN BEANS
LIMA BEANS
SWEET PEAS**

5-acre size, \$5.00; 1-acre size, \$1.50;
¼-acre size, 75c. Small size supplied in
four varieties, for Garden Peas, Beans,
Limas, and Sweet Peas, 35c.

Descriptive folder sent on request.

CYCLONE SEED SOWERS, \$1.95 each

INSECTICIDES

Market variable. Prices subject to change.

SHERWIN-WILLIAMS DRY LIME SULPHUR for San Jose scale. Spray in the early spring while trees are dormant. Also used for summer spray. Is more convenient than the liquid material and has given excellent satisfaction. Lb. 17c; 5 lb. 80c; 10 lb. \$1.50; 25 lb. \$3.50; 50 lb. \$6.50; 100 lb. \$12.00; 200 lb. \$22.00.

Lime Sulphur in liquid form we can supply in full barrels only. Price on request.

FLOWERS OF SULPHUR—Lb. 8c; 5 lb. 35c; 10 lb. 65c; 25 lb. \$1.50; 50 lb. \$2.85; 100 lb. \$5.50.

COMMERCIAL POWDERED SULPHUR—Lb. 5c; 5 lb. 23c; 10 lb. 43c; 25 lb. \$1.00; 50 lb. \$1.75; 100 lb. \$3.25.

HYDROXIDE (Bordeaux Arsenate of Lead)—In powdered form, 3 to 4 lbs. to 50 gals. water. Convenient, effective, profitable. Is both an insecticide and a fungicide, for preventing bugs and blight and producing vigorous, healthy, continued growth.

Lb. 35c; 5 lb. \$1.60; 10 lb. \$3.00; 25 lb. \$7.00; 50 lb. \$13.00; 100 lb. \$25.00.

PYROX—Lb. 50c; 5 lb. \$1.75; 10 lb. \$3.00; 25 lb. \$6.25.

BLACK LEAF "40" (Nicotine Sulphate for Aphis)—1 oz. to 6 gals. 1 oz. bottle, 35c; ½ lb. \$1.25; 2 lb. \$3.50; 4 lb. \$7.50; 10 lb. \$13.25.

ARSENATE OF LEAD, Extra High Quality.

½ lb. 22c; lb. 38c; 4 lb. \$1.28; 10 lb. \$3.60; 25 lb. \$7.00; 50 lb. \$13.00; 100 lb. \$25.00.

SLUG SHOT—Lb. 12c; 5 lb. 55c; 10 lb. \$1.00; 25 lb. \$2.40; 50 lb. \$4.65; 100 lb. \$9.00.

TOBACCO POWDER, Extra Quality—For elimination of large and small worms in poultry. Also high quality for dusting plant aphids.

Lb. 10c; 5 lb. 40c; 10 lb. 75c; 25 lb. \$1.65; 50 lb. \$3.00; 100 lb. \$5.50.

CARBOLA (a disinfecting whitewash)—5 lb. 75c; 10 lb. \$1.20; 20 lb. \$2.20; 50 lb. \$4.50; 100 lb. \$8.50.

BLUESTONE (Copper Sulphate)—Lb. 10c; 10 lb. 90c; 25 lb. \$2.00; 50 lb. \$3.75; 100 lb. \$7.00.

S.W. DISINFECTANT LICE KILLER—Gal. \$1.20.

WEED KILLER—Qt. 55c; ½ gal. 90c; gal. \$1.75.

KAYSO—1 ½ lb. pkg. 50c. **MELROSINE**—Per can, 55c.

BROWN AUTO SPRAYERS—No. 1D, Galvanized, with Auto Pop fittings, \$6.00.

BRASS EXTENSION RODS, 2 ft., 50c each.

AUTO SPRAY NON-CLOG NOZZLES, 75c each. 45-degree Bends, 30c each.

SPRAY HOSE, extra quality, 17c per foot.

HAND ATOMIZER SPRAYERS, 50c each.

MYERS' NO. R318 IMPROVED BRASS BARREL SPRAY PUMP with Agitator, no hose or fittings, \$12.00 each.

POULTRY SUPPLIES

CELLULOID LEG BANDS, Assorted Colors.

Rock and Leghorn sizes, 50c per 100; 50 for 30c; 25 for 20c; less than 25 at 1c each.

Pigeon and Chick sizes, 35c per 100; 50 for 20c; less than 50 at ½c each.

EGG CARTONS—3x4, \$8.50 per 1000; less than 250 at 1c each.

2x6, \$11.25 per 1000; less than 250 at 1 ¼c each.
